Character/Personality

Describe your character/personality?

I am a 2nd grade teacher, which I think fits my personality and character very well. I am silly and fun with my students, but also take it very seriously, as I believe that children are our future and that their education can propel us to our best chance at a bright future. I am very patient and understanding with my students because I believe that students need to feel safe and loved in order to thrive academically. I am the oldest of 4 daughters and have always tried to be a strong role model for my little sisters. I value honesty, active listening, and critical thinking. I think my friends would describe me as very trustworthy and someone they can share anything with. One of my friends says she shares everything with me because "my eyes are just so understanding." That compliment has really stuck with me because that is really how I strive to be. I want the people around me to feel loved, seen, and comfortable to be themselves.

Do you have artistic abilities? If any, please list.

Writing

Please describe your hobbies or what you do on your spare time

I enjoy hiking, swimming, and traveling. I very much enjoy traveling because of how deeply I get inspired to live in the present and soak in new cultures, experiences, and ways of living. I have been to Australia, New Zealand, Kenya, Ecuador, Mexico, Puerto Rico, France, Switzerland, Germany, Spain, the Netherlands, Korea, Vietnam, Japan, Thailand, and the Philippines. Each trip was riveting and impactful, but my most memorable was traveling with my mother to where my grandparents were raised in the Philippines because I got to learn about my culture and family history.

If you could send a message to the Intended Parents. What would you say?

Thank you so much for considering me to be the potential egg donor for your future child. I believe that the most important job in the world is the job of being a parent. As a teacher, I have met so many different parents and can literally see how their care and intention (or lack thereof) affects their students growth and development. Children are the world and they deserve the world. I am so excited for the opportunity and honor of helping you have the world.

Please describe your athletic abilities:

In middle school, I ran a marathon. In high school, I was a Division 1 volleyball, track, and swim athlete. In college, I was a fitness instructor, ran regularly, and played intramural volleyball. Currently I exercise 4-6 times a week.

Why do you want to become an egg donor?

I feel very blessed to be (what I perceive as) a very strong egg donor candidate. I am more than willing to share a part of myself in order to help loving parents fulfill their dreams. I hope to feel a sense of gratification in this journey. I hope to feel simultaneously grounded and uplifted, doing something so much bigger than me. I also dream of becoming a mother one day, so I would love to achieve the financial stability it would take to support my future family.
